

charisma\_end\_handler

```
graph LR; A[charisma_end_handler] --> B[default_end_handler]
```

A diagram showing a pointer relationship between two variables. On the left is a gray rectangular box containing the text 'charisma\_end\_handler'. A blue arrow points from the right side of this box to the left side of a white rectangular box on the right. The white box contains the text 'default\_end\_handler'.

default\_end\_handler
